

Table of Contents

Preface	Honoring Dr. Geraldine Pittman Woods	i
Chapter 1	Project Contact Information	
	• DREF and AAAS Staff.....	1
	• SEE Regional/State Coordinators.....	2
	• SEE Advisory Board Members.....	6
Chapter 2	SEE Program Description & Learning Objectives	
	• SEE Program Description & Learning Objectives	7
	• Objectives for the SEE Leadership Development Workshop.....	8
	• What Does SEE Expect Children and Families to Learn & Do.....	9
Chapter 3	Perspectives on Science and Everyday Experiences from the SEE Leadership	
	• Perspectives from Mona Bailey and Gwendolyn Boyd.....	10
	• Perspectives from Shirley Malcom.....	12
	• Science in Everyday Life.....	14
Chapter 4	Overview of Informal Science Education	
	• What is Informal Science Education?.....	15
Chapter 5	A Discussion Paper about Informal Science Education and Inquiry by Ellen Wahi	
	• Informal Science Education.....	18
	• Inquiry.....	29

Chapter 6	Supporting Science Standards Through Informal Science Activities	
	• Overview of National Science Education Content Standards	39
	• Performance Standards for Science	42
Chapter 7	Typical Format for Informal Science Activities & Probing Questions	
	• Typical Format for Informal Science Activities	48
	• Probing Questions	49
	• SEE Science & Health Activities	50
	I. I2Spot	51
	II. Inhale and Smell	56
	III. Simple Electric Circuits	59
	IV. WordFactory	65
	V. Balancing Act	72
	VI. Butterfly Color Explosion	74
	VII. RoundandRound	76
	VIII. Building with Wonderful Junk	78
	IX. Seeing is Deceiving	81
Chapter 8	Supporting Mathematics Standards Through Informal Mathematics Education	
	• The Need for Mathematics in a Changing World	83
	• Performance Standards for Mathematics	84
	• Illuminations (Mathematics Standards)	94
	• Math Power and Probing Questions	95
	• About Learning Mathematics	96
	• Great Mathematics Websites for SEE Trainers	98
	• Ten Great Mathematics Web Sites for Parents & Children	99
Chapter 9	Typical Format for SEE Math Activities	
	• Math Activities	100
	I. Estimation Challenge	101
	II. What's Your Wingspan?	104
	III. Tangrams	112
	IV. Handshake Problem	120
	V. The Newspaper Fold	122
	VI. The Allowance Challenge	125
	VII. Less is Better	128
	VIII. Counter Game	132

Chapter 10 Tips for Leading Science and Everyday Experiences

- Tips for Leading Science and Everyday Experiences with Children and Families137
- Thinking and Learning Characteristics of Young People.....138
- A Baker’s Dozen: Effective Instructional Strategies139
- Diverse Teaching Strategies for Diverse Learners141
- Teaching Strategies & Behaviors for Working with Learning Disabled Students143

Chapter 11 Internet & Informal Science and Mathematics Education

- Suggested Websites Inquiry-Based Activities in Math & Science144
- Resources for Parents and Children.....147
- Internet Literacy.....149
- AAAS Health & Books Initiatives.....150

Chapter 12 Museums & Learning

- Parent & Teacher Tips from www.tryscience.org151
- ASTC- Members, Science Center and Museum Member Listing152

Chapter 13 Guidelines for Selecting Informal Science and Mathematics Resources

- Guidelines for Selecting Informal Education Resources171
- Choosing the Right Educational Resources173
- Suggested Suppliers of Hands-On Science & Mathematics Materials174

Chapter 14 Organizing and Implementing

- Organizing & Implementing Informal Science Education & Community Events.....175
- Other Organizing Tips176
- SEE Coordinator Reflection Form.....177
